

Memorandum of Understanding for ACADEMIC EXCHANGE
between
Research Center for Development of Far-Infrared Region,
University of Fukui
and
THz Optics & Photonics Research Center,
College of Electrical Engineering and Computer Science,
National Tsing Hua University

PREAMBLE

Research Center for Development of Far-Infrared Region, University of Fukui in Japan (hereinafter referred to as “FIR UF”) and THz Optics & Photonics Research Center, College of Electrical Engineering and Computer Science, National Tsing Hua University in Taiwan (hereinafter referred to as “TOP NTHU”), based on the spirit of reciprocity, establish an understanding to promote and co-operate in the area of education and research in order to strengthen ties between both institutions and to encourage the interchange of academic and research activities.

1. CONTENT OF UNDERSTANDING

FIR UF and TOP NTHU reach an understanding on the following matters:

- *Mutual visit of staff and students:* Encourage the exchange of faculty and students from the respective institutions. The travel and stipend support for the exchange members of faculty and staff are made by the responsibility of the home institution unless otherwise arranged.
- *Joint research in the fields of mutual interests:* Proposals for joint research projects between faculty members of the both sides are strongly encouraged, and approval will be given after both institutions have fully discussed and agreed on the validity and costs of the research program.

2. VALIDITY OF MEMORANDUM

This memorandum shall remain in force for a period of three (3) years from the date that it is signed by both parties, with the understanding that it may be terminated by either party giving twelve (12) months notice to the other party in writing. This memorandum may be amended by the exchange of letters between the two institutions. Such amendments, once approved by both institutions, will become part of this agreement.
